Who are the leading companies working in the smart grid space?

Here is Energy Digital's round-up of the leading companies operating in the smart grids space, supporting a digitised, greener and more efficient future From GE to IBM, Schneider Electric to ABB, there is a whole host of companies working in the smart grid space to make it, well, smarter, as well as more efficient, resilient and reliable.

Who are the best microgrid-as-a-service companies?

Spirae is amongst innovative technology and microgrid-as-a-service companies delivering smart grid solutions to worldwide customers and partners. It was founded in 2002 by Sunil Cherian and is headquartered in Colorado, United States. General Electric is a renowned name in the best microgrid-as-a-service companies.

Why should you invest in a microgrid?

Take advantage of the opportunities the energy transition gives you on a local level - just like we have at our top R& D facility and living lab in Princeton, New Jersey, USA. Let's talk microgrids! Microgrids are a smart and reliable power supply alternative, when autonomous power supply or optimizations for higher level grids are needed.

What is the global smart grid market?

The developments in smart grid systems, including smart appliances, smart meters, smart substations and synchro phasors, has come a long way in recent years, bringing many critical improvements in the realm of energy production. Emergen Research states that the global smart grid market is expected to reach US\$122.97bn by 2027.

Explore top microgrid companies offering microgrid as a service, microgrid solutions and energy storage -- from ABB, GE, Siemens, Eaton to Schneider & Cummins.

Discover the top emerging companies in the Smart Microgrid Startups, their funding activity, key investors, company highlights, and growth stages

Microgrids are a smart and reliable power supply alternative, when autonomous power supply or optimizations for higher level grids are needed.

Explore 10 new microgrid companies from 770+ entrants, offering power generation, microgrid integration platforms, energy storage & more.
