Whether you are starting a new lighting project, need to add new lights to an existing one, or are simply looking to upgrade your solar lights, we have the right solution for you.

We make the most reliable solar and solar/wind powered streetlights. Our Smart Off-Grid lets you monitor, control and proactively service them over the Internet.

Wind solar hybrid street light refers to the system that wind turbine and solar panels are combined as power generation components to jointly charge the energy storage battery and realize the ...

The Solar wind streetlight designed is an intelligent, small scale, and off-grid LED streetlight system composed of solar modules, wind turbine, backup batteries, controller and LED.

We develop and install solar and wind powered LED off-grid street lights, providing guaranteed lighting & STEM learning opportunities on renewable energy.

The Solar Wind Hybrid Street Light is engineered for reliability in challenging climates. By pairing solar modules with a wind turbine, the system captures energy on sunny days and continues generating ...

Wind solar hybrid street lights combine the power of both wind and solar energy to provide sustainable lighting for outdoor spaces. These systems are equipped with both wind turbines and solar panels, ...

At SUNWAY, we specialize in solar and wind-powered smart streetlights with integrated monitoring systems--a cutting-edge solution that combines sustainability, cost efficiency, and ...
