? High-Capacity Outdoor Energy Storage for Scalable Applications Key Features: 2150kWh battery storage with 1000 kW rated AC output, ideal for commercial and industrial loads. Combines LFP ...

Built-in fire, flood, and temperature control with system warnings for safety. Dual ...

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...

These connected systems record temperature fluctuations over time, offering valuable information for predictive maintenance and adjustments based on environmental conditions. By ...

Built-in fire, flood, and temperature control with system warnings for safety. Dual fire suppression, ATS/STS ensure seamless power switching. Integrated BMS/PCS/EMS supports diverse applications.

We can provide users with full-scenario lithium battery systems, and provide customized lithium battery solutions to high-end users. Click the link below to download technical documents

Our 20-foot Air-cooled cabinet C& I solar power storage systems feature a revolutionary Battery Modular design and distributed cooling system. This means better temperature control, ensuring your ...

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.
