Our team specializes in custom 48V lithium solutions for e-mobility, solar storage, and industrial applications. Get professional guidance on chemistry selection, BMS configuration, and ...

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the voltage ...

Black battery box without wheels. 100% safe, nontoxic steel aluminum alloy material, with an anti-oxidation layer, which makes it perfect for off-grid solar systems and outdoor applications ...

Solar and Wind Energy Storage: The lithium battery storage containers efficiently store the energy generated by solar panels or wind turbines, providing a stable energy supply when the renewable ...

With 300Ah capacity, 100A continuous discharge, and peak support up to 110A, it handles heavy-duty loads with ease. Its rugged, floor-standing design and integrated BMS with thermal suppression ...

Composed of prismatic 3.2V cells which have been tested at 6,000 deep discharge cycles to 80% DoD - fully charge and discharge this battery daily for over 15 years without issue.

Custom 48V lithium-ion battery pack 12Ah with NMC cells & BMS protection. Compact, powerful 48V lithium battery for solar, robotics, portable devices and more.

It is the global volume leader among Tier 1 lithium battery suppliers with plant capacity of 77 GWh (year-end 2019 data). Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy ...
