---

A 150 MW/300 MWh grid-forming shared energy storage power station in Yongde County, Lincang City, Yunnan Province, was recently put into operation. The project is said to be the ...

To create higher value for customers with "excellent performance, extremely frugal investment, extremely intelligent operation and maintenance, and extreme security". The project is located in ...

There are over 1,400 major energy storage projects currently in the database, representing more than 116,300 MWh of capacity. The list shows that there are more than 195 GWdc of major solar projects ...

Los Angeles, CA, Feb. 03, 2026 (GLOBE NEWSWIRE) -- Zaya Younan, Founder and Chairman of Younan Company, today announced plans to architect and develop what is intended to ...

Short-term storage that lasts just a few minutes will ensure a solar plant operates smoothly during output fluctuations due to passing clouds, while longer-term storage can help provide supply over days or ...

Factor This" News section is your premier destination for the latest updates and in-depth analysis across the renewable energy sector. Covering a wide array of topics--including solar power, wind energy, ...

SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered -- on time and at massive scale. With proven expertise, deep resources and full lifecycle ...

Under the project design, solar energy generated during the day will be stored and dispatched through the battery system, ensuring power supply during non-sunlight hours and enhancing grid stability.
