Discover the world's biggest operational solar farms and the mega projects set to reshape tomorrow's renewable energy landscape.

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Texas continues to lead the nation in renewable energy growth, with a massive pipeline of solar projects currently under construction. The state continues to offer attractive opportunities for ...

Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in United States (US) with our comprehensive online database.

The U.S. Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. front-of-the-meter, photovoltaic facilities, direct current capacity of 1 megawatt or more, that became ...

Here is a map of all utility-scale planned solar projects in United States. Hover over a planned solar project to view information on each project like their name, capacity and construction date. To get ...

Explore the top US utility-scale solar projects of 2024-2025. Learn how gigawatt-scale farms and integrated battery storage are powering America's energy future.

FirmoGraphs is tracking more than 100 very large solar projects starting construction in 2023 with a total estimated value of nearly \$40 billion.
