Capacitance (max.) High Temperature, Ceramic, Capacitors manufactured by Vishay, a global leader for semiconductors and passive electronic components.

For harsh environmental application conditions demanding high temperature and robust components, AVX offers surface mount ceramic capacitors with excellent performance across a wide range of ...

High Temperature Capacitors All our Class I NPO / N2200 and Class II X7R dielectrics are capable of 200°C performance. Please see those case sizes and specify High Temp required. "P" Square - ...

Murata's high temperature resistance film capacitors (FH series) have outstanding heat resistance compared to conventional film capacitors. Moreover, these capacitors realize a reduction ...

Exxelia's High Temperature Film Capacitors range designed to withstand extreme conditions with unparalleled reliability. Our cutting-edge technology ensures optimal performance in demanding ...

KEMET High-Temperature Capacitors provide capacitance solutions for applications up to 260°C and voltages up to 20kV. Product applications include harsh environments such as down ...

Kamcap supercapacitor is widely applied in different industries. We can also customize super capacitors with special parameters according to the needs of customers from different industries. Want to buy ...

We provide a wide range High Temperature MLCCs designed to operate in diverse High Temperature environments. Standard automotive, military and commercial applications often require that ...
