Who is Vivint Solar?

Vivint Solar was an American provider of photovoltaic solar energy generation systems, primarily for residential customers. The company was established in 2011 as an offshoot of home automation and security company Vivint and was headquartered in Lehi, Utah.

Does Vivint install solar panels?

In addition to the two main solar panel brands, Vivint also installs two kinds of solar batteries to provide backup power, and it offers free solar monitoring apps and smart home technologies along with the inverters and microinverters it installs from Enphase and SolarEdge.

Does Vivint Solar offer a smart home system?

The main solar service from Vivint includes an entire smart home system, truly setting it apart from the rest of the competitors on the market. The Vivint Solar customer gets much more than a few panels installed on their roof.

How much does Vivint Solar cost?

For a solar panel system, Vivint Solar will typically cost between \$11,000 and \$25,000. However, these costs will vary depending on a few key factors. Vivint does not offer any pricing information on its website. This is because of the fact that the price is going to change considerably from one area to another.

In addition to the two main solar panel brands, Vivint also installs two kinds of solar batteries to provide backup power, and it offers free solar monitoring apps and smart home ...
