Tunisia has awarded French renewable energy company Voltalia a contract to develop a 132-megawatt solar power project to boost electricity supply in the country.

With the addition of the Wadi project, Voltalia's total solar capacity in Tunisia that is planned to move into the construction phase has reached nearly 400 MW. Furthermore, the project aligns ...

Tunisia's energy storage power generation sector is transforming faster than a desert sunset. With solar irradiation levels hitting 5.3 kWh/m²/day and wind speeds reaching 9 m/s in coastal areas, this North ...

The World Bank is looking to recruit a technical consultant that will advise on a proposed large-scale solar-plus-battery storage project in Tunisia. The consultancy work will centre around...

This article explores how battery storage, pumped hydro, and innovative technologies can transform Tunisia's power infrastructure while addressing challenges like solar intermittency and peak demand ...

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shabb, has approved four solar projects with a combined capacity of 500 MW Battery Energy Storage System (BESS).

This project is Tunisia's first solar power plant with a capacity exceeding 100 MW. These new awards highlight a clear shift in Tunisia's renewable energy strategy. The government is now ...

02 Feb 2026 Voltalia, an international player in renewable energies, has secured a 132-megawatt solar project in the Gabès region in south-east Tunisia After winning the Sagdoud project ...
