With 12 years of experience, EK SOLAR designs custom energy storage solutions for industrial and commercial clients worldwide. Our Sousse facility holds ISO 9001 and IEC certifications.

Specializing in desert-optimized storage systems, our containerized solutions withstand harsh Saharan conditions while delivering 95% round-trip efficiency. Ask about our modular designs that grow with ...

Tunisia's energy storage power generation sector is transforming faster than a desert sunset. With solar irradiation levels hitting 5.3 kWh/m²/day and wind speeds reaching 9 m/s in coastal areas, this North ...

Summary: Discover how tailored multifunctional energy storage systems address Tunisia's growing power demands. This guide explores Sousse-specific applications, renewable integration strategies, ...

This article explores the latest developments in Tunisia's battery storage projects, technological innovations, and how companies like EK SOLAR contribute to this dynamic market.

EK SOLAR has deployed 127MW of customized storage solutions across North Africa since 2015. Our modular battery systems adapt to your unique needs while complying with local regulations and ...

This article explores how battery storage, pumped hydro, and innovative technologies can transform Tunisia's power infrastructure while addressing challenges like solar intermittency and peak demand ...

Preliminary studies have confirmed the critical role of storage technologies in supporting Tunisia's ambitious renewable energy targets. The recent launch of the country's first large-scale energy ...
