With over 20 years of experience, NPP Power specializes in custom lithium battery pack manufacturing. We provide tailored energy storage solutions that ensure efficiency, safety, and sustainability.

We work with each client to design fully custom energy solutions, from basic functionality to exact voltage and capacity. The process begins with a comprehensive feasibility study to understand the ...

Lithium-ion battery pack manufacturing process includes separate cell sorting, assembly, and insulation stages to ensure high performance, safety, and longevity for all of our custom rechargeable battery ...

Our proprietary technology makes it possible to create custom battery packs to meet various operating requirements cost-effectively. See our cold temperature-tolerant custom battery pack, surge-and ...

Based on your requirements, we design a tailor-made battery solution including cell selection, BMS integration, mechanical housing, and connector interfaces. We then build a functional prototype for ...

Discover Vade Battery's UL 1973-certified lithium pack engineering with 15% higher energy density and 40% cycle life extension. Access our 7-stage validation protocol for OEM projects.

Our team of experienced battery engineers will work closely with you to design and manufacture batteries that meet your specific voltage, capacity, and size requirements.

Your specialist custom lithium-ion battery pack manufacturer. We design and manufacture custom lithium battery packs for diverse industries.
