Standardized Structure Design: Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet.

Designed to house a variety of communications equipment, customers take advantage of our engineering and factory integration for complete turn-key solutions. The CNTCE product line ...

Designed for long-term outdoor operation, the new 60 kWh system features an IP55-rated enclosure, ensuring strong protection against dust, rain, and harsh environmental conditions.

Discover rugged outdoor battery cabinets with IP65 protection, ideal for telecom and solar applications. CE certified, weatherproof steel enclosures ensure reliable performance in harsh environments.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. It delivers clean, ...

Built for long-term durability, it ensures secure housing for batteries, power control equipment, and communication systems exposed to harsh weather conditions such as rain, dust, and temperature ...

- Cabinet made of low thermal conductivity and fireproof material for heat insulation fireproof. - Can be installed in any difficult places include the top of mountain and the roof of ...

Designed to house a variety of communications equipment, ...
