Annual Report of the FST(23)-01 Electronic Communications Office of Iceland (ECOI)

Green by Iceland is a collaborative platform uniting the private and public sectors to tackle climate issues and develop sustainable, green solutions. Focusing on innovation, renewable energy,

The first submarine telegraph cable connection to the British Isles reached Seyðisfjörður in Iceland in 1906 by the Great Northern Telegraph Co. Around the same time telephone communication was opened between Reykjavik and nearby Hafnarfjörður. By 1911 a telephone line connected Reykjavik in the west of Iceland to Seyðisfjörður in the east via Akureyri in the north. A line to the Vestmannaeyjar was constructed a few years later, and by 1929 a line along the south coast of the island connected Reykjavik to Seyðis...
