The SOLAS Convention in its successive forms is generally regarded as the most important of all international treaties concerning the safety of merchant ships. The first version was adopted in 1914, ...

The first version of SOLAS Treaty was passed in 1914 in response to the sinking of RMS Titanic, which prescribed numbers of lifeboats and other emergency equipment along with safety procedures, including continuous radio watches. The 1914 treaty never entered into force due to the outbreak of the First World War. Further versions were adopted in 1929 and 1948.

SOLAS 1974 officially took effect on May 25, 1980. It's like the safety manual for modern ships, covering everything from life-saving appliances to fire safety systems.

Conclusion The SOLAS Convention has dramatically improved maritime safety since its modern version was adopted in 1974. Through detailed technical standards, mandatory codes, ...

The first SOLAS Convention was adopted on 20 January of 1914, with a view to entry into force in July of 1915. However, it came into force later because of the war that broke out in Europe.

1974 saw the adoption of the current version of SOLAS, which entered into force in 1980.

In 1974, a completely new Convention was adopted to allow SOLAS to be amended and implemented within a reasonable timescale, instead of the previous procedure to incorporate amendments, which ...

SOLAS was originally introduced as a response to the Titanic disaster in 1914. the 1974 Convention has been updated and amended regularly to cover all issues regarding safety at sea, ...
