The expandable stackable Lithium Battery Storage Cabinets makes adding multiple Batteries or additional Inverters to your Energy Storage Solution quick, attractive and super simple.

MEGATRON 1500V 344kWh liquid-cooled and 340kWh air cooled energy storage battery cabinets are an integrated high energy density, long lasting, battery energy storage system.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on ...

Where cabinet-based designs with centralised fire protection and delayed response times can be vulnerable to propagation risk, modular systems can take design in a fundamentally different...

We offer a compact and durable system, providing a comprehensive and complete solution for stationary energy storage. With professional experiences and customization capabilities, we can help ...

Expandable storage created specifically to be able to pair with the system you are designing. If you already have an energy storage system, the BOSS Cabinet can bring auxiliary battery power to your ...

Our battery energy storage systems are perfect for energy shifting and peak lopping, making them an excellent choice for any renewable energy project. The cabinets are sized to enable mounting of all ...

To use an integrated energy storage cabinet, install batteries and related equipment into designated compartments. The cabinet provides a centralized and secure storage solution for energy storage ...
